

## Quick Hits #8 / 11 Sept 2022 Jim Laffoon Message / The New Class of Christians / The Move of Repentance

### The Jim Laffoon Message – Power Conference 2022

Some comments before Jim Laffoon's video. (See [Jim Laffoon Message - Power Conference 2022 - YouTube](#))

Our church has had a prophetic edge and we've been on target in a lot of areas. It has been exciting and sobering.

- We spoke about some of the things you'll hear from Laffoon back in 2019.
- We said that the U.S. cannot remain the same without any change if it is going to be impacted by the prophesied move of God that's coming. The big move that we've been praying and believing for.
- Our country is being shaken up and we're feeling the pain of it. It's unfortunate, but half (or over half) of the country has chosen to be "stupid" and I'm using that phrase the way Bonhoeffer used it.
- Bonhoeffer was a theologian in Germany who watched his country become infected with Naziism and then totalitarianism. You can check out Bonhoeffer's *Theory of Stupidity* on You Tube.
- Laffoon's message also harmonizes with Chuck Pierce. Pierce said that if the U.S. doesn't start turning around, it's going to start looking like China by 2026.
- We also believe that the U.S. is at a crossroads. We still have time to change course as a country, but we don't have that much time.
- The speed of change is incredible. There is an actual drift toward totalitarian thinking, acceptance, and implementation of policies.
- I don't believe that politics or laws will save our country. The U.S. is living out Romans chapter 1.
- I believe that the pressure and stress from our current ecological, social and economic problems can help bring people to the reality that God is their only hope. No other. My prayer is that God use every strategic tool to bring people back to their good senses and join His kingdom.

### The New Class of Christians

Very soon, there will be an appearance of a "new class" or "new breed" of Christian that will be unveiled to the world. I believe that the Holy Spirit highlighted this to me back in December of 2021 and I reported this out in January of 2022. I can remember feeling the **intensity** of this movement. I believe we at Firestorm NW will be part of this movement.

When I refer to "class," I'm referring to the way of differentiating between people or objects. Each class has its own specifications and particular attributes that are featured. For example, to maintain their fleet, the navy builds prototype ships that have the specs and features that they want. Other ships are then built that follow the same blueprint plans and have the same features. This is called a "class" of ships.

On September 6, 2022, I was again impressed that this new class will be appearing very soon. Again, it will be an "all in" movement. It may even be called a "radicalization" by others because of the lukewarmness and traditions of Christianity that have been held onto in the U.S. In actuality, it will be

that those affected will have a very clear understanding of their mission and purpose and will live it to the fullest extent.

Revelation 12:11 says:

*And they overcame him because of the blood of the Lamb and because of the word of their testimony, and they did not love their life even when faced with death. (NASB)*

This new class will be “God-Chasers” and their characteristics will be **hunger and thirst**. They will be like “Nazirites” taking vows and oaths. Their view will be that anything that is not advancing the Kingdom of God is a waste of their time. That sounds quite serious and even harsh, but that will be their view. They will love Jesus intensely and will be willing to sacrifice themselves for Him and the mission. This type of intensity will draw inspiration and many will want to join them. Of course, the worldly and the lukewarm will draw back and view this as dangerous.

One thing that will be distinctive about this group will be their **intense relationship to Jesus**. This is what will inspire others and why they will want to be a part of it. As for others who look at this and scoff and who would want to attack it, I would just add one warning. Be careful. Don’t touch what has been made holy.

This class of people will demonstrate signs and wonders, but they will also **be** signs and wonders. No one will be able to work up this type of thing. No one will be able to just step into it or just ask for it in a single prayer. It will stem from an ongoing relationship with the Lord and His supernatural workings within individuals. It has to be by agreement. You have to have a hunger for it. For some saints, it may seemingly take a while for this to develop, while for some, it may be a fast work. It will require total commitment, but the depths and benefits of relationship will clearly overshadow the sacrifices made.

With the above being said, being “all in” will not be for the faint of heart nor for those who are seeking an identity in church culture. As much as we’d like it to be, it may not be for everybody, nor will it work out for everybody. That’s just a reality.

Along with this new class of Christian will be an uncompromising message. It will be fresh and delivered with power. People will listen. I also sensed that there will be **waves** of newly evangelized converts coming soon and many will have been affected by this new class of Christian.

I believe that this also harmonizes with Tim Sheets’ short message and prophetic word that he stated on 1 September 2022 (see [God Says, "I Will Answer The Challenge" | Tim Sheets - YouTube](#)). There is going to be a new aggressiveness in the spirit and I believe it’s also going to be in this new class of people.

### **New Leaders in a New Era**

Back in December of 2021, I said that the Holy Spirit will be appointing and raising up leaders from the different generations to lead their groups. We’ll need to respect this as they may seem like upstarts in the natural. Those leaders will have an anointing to connect with their people. People will connect with them and their message.

Along with that, I also sensed that this new wave of leader will have a **commitment** that will set a **new tone and standard** in **modeling Christianity** and **Christian leadership**.

- Many new leaders will come from the newer generations such millennials and Gen Z and they will understand the importance of **integrity** and **trust**.
- I sensed that these leaders would rather die than compromise their message, or betray their faith, or to succumb to money or other temptations that would compromise them. They will model what the true faith looks like.
- There may be some that fail, but most, if not all, will not be “bought.”

**This will be the kind of leadership that will steward the next move of God and give this nation a chance to survive.**

### **The Move of Repentance**

This is another move that’s coming. A move of repentance as well as revival. This has been spoken of by current day prophets as well (e.g., L. Vawser).

The church will be going through a move of repentance as well as revival. Holy Spirit is going to highlight things that need to be repented of or changed in our lives. It’s not going to be fun and games. It won’t be comfortable. It will be serious, but His grace will be there to work with us. The Holy Spirit has His ways and we know that He’s kind although persistent.

While this is happening. While the Holy Spirit is working with you, the enemy will want to torment you...chase you...tell you that you’re disqualified. I’m just giving you a heads up.

Questions may come up (that I don’t have the answer now) such as “do I need to publicly confess?” “Do I or can I go to the person to say I’m sorry?” I believe the Holy Spirit will lead each individual in that regard.

Some of us may have a challenge with coping. It may get so uncomfortable that that you may start thinking of leaving the church or doing self-harm. Both are destructive and life-altering.

- Firestorm NW is establishing a list of “safe-people” like a “safe-place.” A place where you can go if things start looking pretty dark and out of control.
- This will be someone you can call rather than go out in the woods and put a gun to your head (so to speak).
- Many, and probably everyone, have areas of darkness. I know that we’ve been forgiven, but the Holy Spirit may put a spotlight on things to get them taken care of.
- It doesn’t matter if a person is into porn, secretly homosexual, likes to steal, a closet drunk, visits prostitutes, hates people or wants to start a violent revolution...make the call. Let’s walk together.
- It may not be easy and I want to offer help if you get stuck.
- If you’re walking around in American society, you already know what’s available in media and on the internet...as much as you want...for free or small fees. Many, if not most of us, have been affected in one way or another.

Don’t dread this move of repentance. Let’s embrace it as painful as it may be. In it, we’ll find real freedom and we won’t have the hooks in us that enemy uses to pull us back when we make efforts to advance the Kingdom of God.
